2020521, Email: mayank20521@iiitd.ac.in

DOB: September 23, 2002

Address: 21/2A BSNL TYPE4 QRTRS. KALI BARI MARG,
GOLE MARKET DELHI 110001

Education

IIIT DELHI

B.Tech (CSB)
2020-2024(PRESENT)

CGPA: 7.26
(till IV
Semester)

SRDAV PUBLIC SCHOOL, DELHI 110092, NEW DELHI

CBSE CLASS 12
2018 – 2020

Percentage:
90%

SRDAV PUBLIC SCHOOL, DELHI 110092, NEW DELHI

CBSE CLASS 10
2016 – 2018

Percentage:
95%

Skills

Expertise Area

FRONT END DEVELOPMENT

Programming Language

JAVA, JAVASCRIPT, PYTHON

Tools and Technologies

SQL, EXPRESS.JS , REACT JS, NODE.JS

Technical Electives

DIFFERENTIAL CALCULUS, BASIC ELECTRONICS

Internship

Campus Entrepreneur

Guide: Coding Ninjas

My job was to make my friends at college aware about the ongoing activities and initiatives at Coding Ninjas using social media.

(NOV, 2021 - JUNE, 2021)

Projects

WHATSAPP (A MOCK WHATSAPP LIKE APPLICATION USING SQL)

(JAN, 22 - APR, 22)
Team Size - 2

WE CREATED A FULL STACK APPLICATION WHICH TOOK IN DATA FROM FRONT END PERFORMED CRUD OPERATIONS ON SQL DATABASE. USED EXPRESS, REACT AND NODE.

Menu (React Application using basic Fetch and Hooks)

(May 22)
Individual
Project

I made a simple React Application by fetching information from an API and then rendered it on the screen. We have a menu of food items segregated by categories. On clicking on different categories we see food items solely of the concerned category.

CodeSandbox Link = <https://codesandbox.io/s/cool-lewin-5covbw>

People Reviews (React Application using basic Fetch and Hooks)

(May 22)
Individual
Project

I made a simple React Application which fetches the personal information of several people from an API. Then renders the information on screen and constantly changes the person shown on the screen by the use of buttons provided on the screen.

CodeSandbox Link = <https://codesandbox.io/s/gracious-bush-pnytc0>

TextUtils (React Application using basic Routing)

I made a simple React Application which admits texts input from the user and makes all kinds of desirable changes to the text along with providing the user with information about the text.

(June 22)
Individual
Project

Github Link = <https://github.com/mayank2309jha/TextUtils>

NewsMonkey **(React Application using APIs)**

I made a simple React Application by fetching information from newsAPI and displaying the news along with the image, the time of publish, the name of the author etc.

(June 22)
Individual
Project

The news has been divided into different categories like business, sports, health etc. We can read news of different categories.

If we have news on a particular category on more than one page we can navigate to some other page.

Github Link = <https://github.com/mayank2309jha/NewsMonkey>

Positions of Responsibility

- CAMPUS ENTREPRENEUR AT CODING NINJAS (NOV,21 - JUNE,22)

Interests and Hobbies
